In re Application :
Friedman, et al. :
Application No. 10/780,295 : PATENT TERM ADJUSTMENT
Filed: February 17, 2004 :
Dkt. No.: 16454.00002 D2 :

This is a decision on the "APPLICATION FOR RECONSIDERATION OF PATENT TERM ADJUSTMENT UNDER 37 C.F.R. § 1.705(b)," filed January 7, 2009.

The application for patent term adjustment (PTA) under 37 CFR 1.705(b) is **HELD IN ABEYANCE**.

The Determination of Patent Term Adjustment under 35 U.S.C. 154(b), mailed October 8, 2008, indicated a patent term adjustment (PTA) to date of 330 days. The instant application for PTA was timely filed January 7, 2009 at the time of payment of the issue fee. Applicants argue that application is entitled to an additional adjustment of 256 days in accordance with 37 CFR 1.702(b).

Applicants contest the adjustment insofar as it relates to the Office's failure to issue the patent within three years of the filing date of the application pursuant to 37 CFR 1.703(b) in view of Wyeth v. Dudas, No. 07-1492 (D.D.C. September 30, 2008).

To the extent that this application for patent term adjustment requests reconsideration of the patent term adjustment as it relates to the Office's failure to issue the patent within 3 years of the filing date, a decision is being **held in abeyance** until after the actual patent date. Knowledge of the actual date the patent issues is ordinarily required to calculate the amount, if any, of additional patent term patentee is entitled to for Office failure to issue the patent within 3 years. See, 37 CFR 1.703(b). It is noted that at the time of this decision, the patent has not issued.

Applicants are given **TWO (2) MONTHS** from the issue date of the patent to file a written request for reconsideration of the

patent term adjustment for Office failure to issue the patent within 3 years. A copy of this decision should accompany the request. Applicants may seek such consideration without payment of an additional fee. However, as to all other bases for seeking reconsideration of the patent term adjustment indicated in the patent, all requirements of § 1.705(d) must be met. Requests for reconsideration on other bases must be timely filed and must include payment of the required fee.

With respect to the over 3 year calculation, rather than file the request for reconsideration of Patent Term Adjustment at the time of the mailing of the notice of allowance, applicants are advised that they may wait until the time of the issuance of the patent and file a request for reconsideration of the patent term pursuant to 37 CFR 1.705(d). The USPTO notes that it does not calculate the amount of time earned pursuant to 37 CFR 1.702(b) until the time of the issuance of the patent and accordingly, the Office will consider any request for reconsideration of the patent term adjustment due to an error in the calculation of 37 CFR 1.702(b) to be timely if the request for reconsideration is filed within two months of the issuance of the patent.

The required patent term adjustment application fee of \$200.00 has been charged to applicants' deposit account, as authorized.

The application file is being forwarded to the Office of Data Management for issuance of the patent. The patent term adjustment indicated on the patent (as shown on the Issue Notification mailed about three weeks prior to patent issuance) will include any additional adjustment accrued both for Office delay in issuing the patent more than four months after payment of the issue fee and satisfaction of all outstanding requirements, and for the Office taking in excess of three years to issue the patent (to the extent that the three-year period does not overlap with periods already accorded).

Telephone inquiries specific to this matter should be directed to Petitions Attorney Alesia M. Brown at (571) 272-3205.
